📍 Mandi, H.P, India

SUMMARY

I am a passionate and dedicated Master's student with a strong foundation in software development, data science, and machine learning. Holding an MCA in AIML from Chandigarh University, I have honed my skills in programming languages such as Python, as well as in web development. I am eager to leverage my knowledge and enthusiasm for technology to contribute to innovative projects and collaborate with dynamic teams.

SKILLS

Web Development	CSS	Data Science	Debugging	Deep Learning	Git	Github	HTML	Java
Javascript	JDBC	keras	Machine Learning	mongo	MongoDB	Neural Networks	node	
node.js	OpenCV	Python	python 3	Spring Boot	SQL	Tensorflow	Videography	

PROJECTS

E-commerce Cake Ordering Website

📅 01/2023 - 04/2023 📍 India

An online platform allowing users to order cakes with various features for convenience and security.

- Functional e-commerce website for ordering cakes online, featuring a user-friendly interface, easy navigation, and secure payment integration.
- Used: HTML, CSS, JavaScript, React, Node.js, Express, MongoDB, Stripe API

Fruit and Vegetable Image Detection System

📅 05/2023 - 08/2023 📍 India

A project aimed at creating an intelligent system for visual recognition in agriculture.

- Developed a deep learning-based image detection system to classify fruits and vegetables with high accuracy.
- Implemented Convolutional Neural Networks (CNNs) to classify over 20 types of fruits and vegetables.

CERTIFICATION

✓ Python 3 Programming coursera .Python Basics, Python Functions, Dictionaries Data Collection and Processing with Python, Python Classes and Inheritance, Python Project: pillow, tesseract, and opencv	✓ web development Bootcamp HTML and CSS Basics, JavaScript Fundamental, React, node js, Mongo db, git ,SQL	✓ java 17 udemy • Java Programming Basics, Error Handling and Debugging, DSA,JDBC, Spring Boot
